

THIS IS AN OLD WELL , I PULLED OUT 60' OF OLD TIN CASING
RIMMED A 10" HOLE TO 110' , AND PUT IN NEW STEEL CASING
AND CEMENTED IT FROM BOTTOM UP. CLEANED THE WELL OUT GOOD
BUT DID NOT DO ANY DRILLING IN IN THE BOTTOM OF THE WELL
AS THERE WAS ALL THE WATER THERE THAT HE NEEDED. I SEE NO
WAY THAT ANY POLLUTION CAN GET IN THIS WELL.
